

International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 9 ~ Issue : 12

p-ISSN : 2320-9356

Contents :

Asurveyoniot based weather reporting system	01-05
Evaluating the Impact of Artisanal Crude Oil Refining on Soil Properties at a Mangrove Wetland , Eastern Bonny River , Rivers State	06-14
Human Capital Optimization: A study on Effect of Internal training and Digital Learning on Employability development of employees	15-20
Human Action Recognition Using accelerometer and gyroscope	21-28
Comparative study for identification of Candida albicans with germ tube test in human serum and plasma	29-32
Synthesis and characterization of Metal Ion Imprinted Alginate Network	33-35
A Study on Setting Behaviour and Shrinkage of High Performance Pavement Concrete-A Review	36-40
Assessment of Service Quality at Higher Education Institutions Using the Integration of the Hiedqual Model and the Service Improvement Matrix	41-52
Server Stress Test Using DDoS Attack	53-58
Green Synthesis of Pyrimidine Derivatives via Chalcones and Their Biological Evaluation	59-66
Synthesis and Characterisation of azetidin-2-ones and thiazolidin-4-ones encompassing benzothiazole	67-70
Summarization of Text Based on Deep Neural Network	71-79
Quality Evaluation of Drinking Water Samples from Bore Wells In Edanji Using Physico-Chemical Parameters	80-83
