

# International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 9 ~ Issue : 12 ~ Ser. : 5

p-ISSN : 2320-9356

## Contents :

An Object Detection Using State-Of-Art Deep Learning Yolo Network	01-04
Formulation and Evaluation of Hair Conditioner from Custard Apple (Annona Squamosa) and Curry Leaves (Murraya Koenigii)	05-11
A Study on Mechanical Properties and Fracture Behavior of Chopped Fiber Reinforced Self-Compacting Concrete	12-17
Cusum Control Chart For Type -I Censored Lomax Distribution Using Likelihood Ratio Statistic	18-25
Restaurant Menu Card by Using Augmented Reality	26-29
Optimization of Process Parameters for Optimum Metal Removal Rate in Wire EDM of AISI D2 Tool Steel Using Taguchi Method	30-38
A Review on Biogas Production Using Various Wastes	39-45
Charging and Discharging Strategies of Electric Vehicles with V2g Operation Scenarios	46-54
Quantity of Casein in Different Sample of Milk	55-57
Analysis and Development of Effective Tool Inventory Management	58-62
Modification And Simulation Of Performance Investgation By Repositioning The Intercooler	63-69
Voltage Sag and Swell Mitigation Using DVR	70-75
Viscometric and Ultrasonic study of isolated rice protein in aqueous solutions	76-80
Enhancement of heat transfer rate using CuO (Copper Oxide) nanofluid in heat exchanger	81-86
Education and Modern Technologies, Their Positive and Negative Impact	87-88
Economic Consequences of Corruption Evidence from Pakistan	89-97
