

International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 9 ~ Issue : 7 ~ Ser.-15

p-ISSN : 2320-9356

Contents :

Air Quality Prediction By Given Attribute Based On Supervised Machine Learning Approach	01-06
Glass Fiber Reinforced Concrete as a Recent Construction Material	07-13
Object Recognition And Transforming Image In Textual Context In Android Using Image Processing	14-16
Generalized Walsh and Hadamard Transforms	17-25
Segmentation of Head and Neck Cancer cell using Deep learning	26-32
Comparison of Analysis and Design of Regular and Irregular Configuration of Multi Story Building in Various Seismic Zones and Various Type of Soils	33-39
Land Use Case and Utilization Classification using CNN	40-45
Environmentally sustainable sewage management – a case study of Ahmedabad, India	46-56
Design and Optimization of Image Processing Drone	57-63
A Categorization of Ultrasound Image Segmentation	64-70
Small Scale Wastewater Treatment Plants	71-73
Enhanced Secure Data De-Duplication Interfaced with Private Cloud as Infrastructure for Public Cloud Storage	74-85
GDPR knowledge of Indian people	86-89
Scientometric Analysis of Research on Infectious Diseases	90-96
Bibliometric Analysis of Water Pollution Research	97-104
