

International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 10 ~ Issue : 5 ~ Ser. 5

p-ISSN : 2320-9356

Contents :

Distracted Driver Detection with Deep Convolution Neural Network	01-05
Study of the Composition of Fatty Acids in Vegetable Oils by Gas Chromatographic Method	06-09
A Review of Accelerated Corrosion Studies on Reinforced Concrete Samples Using Voltage Impressed Test	10-14
Special Emphasis on Cost Analysis and Design of Stabilized Flexible Pavement with Conventional Flexible Pavement	15-25
Reliable and Efficient Design of Network-On- Chip	26-31
Stepper Motor Controller Using Arduino (ATMEGA 328)	32-34
Research on Variable Parameter Control of Fan Coil Based On Thermal Comfort	35-42
Internet of Things (IOT) Based Health Monitoring System and challenges	43-47
Rubella Syndrome associated with hearing loss and ocular defects - A Single Case Study	48-52
Big Data and Accuracy Challenges	53-57
Vehicle Detection and Counter	58-60
Design and Fabrication of Multipurpose Wheel Spayer Machine	61-66
An Experimental Study of Polypropylene Concrete	67-71
Engineers, Chartered Accountants, Doctors and Respective Specialist Lending Opportunity and Challenges	72-76
