

# International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 10 ~ Issue : 6 ~ Ser. 3

p-ISSN : 2320-9356

## Contents :

Predicto - Symptomatic Disease Predictor using Machine Learning	173-176
Task Top Manager	177-183
Effect of Chopped Glass Fibers On The Strength Of Concrete Tiles	184-192
Fake Reviews Detection Using Supervised Machine Learning	193-205
Library Attendance System Using YOLOv5 Face Recognition	206-210
Extracurricular Activities Attendance Management Monitoring System with SMS Notification	211-217
Review on A New Hybrid Solar-Wind Charging Station for Electric Vehicle Applications and Its Simulation	218-225
AI Assistant For Visually Impaired	226-231
Research on the Effect of inlet location and air supply angle with displacement ventilation system in machining plants	232-236
Building Reality Experience Web Application	237-241
Traffic Problems on Jawahar Marg Indore and Alternative Solution	242-245
Predicting Secondary Structure of Amino Acids Using Information Theory-Based Method	246-253
Total Quality Manager (TQM) Factors Effects on Large Scale Industry	254-258
