Contents :

Recent Advances in Defluoridation of Water using Alumina based Adsorbents: A Review	113-121
Concrete Strength Prediction Using Machine Learning Algorithms: Survey	122-127
Flood Estimation Using GIS	128-133
Absorption spectral studies of Ho ³⁺ ions doped in some oximes	134-137
Few bonding parameters study, on the basis of spectral intensity of Dy ³⁺ ion in solution of some organic oximes	138-142
Normalised Difference Vegetation Index (NDVI) and Land Surface Temperature (LST) Analysis of Chamarajnagara District Karnataka India Using Landsatdata	143-148
Mining Analysis on the Correlation between Football Player's Competency and Value Based on Machine Learning	149-156
A Machine Learning Approach to Early Detection of Pancreatic Cancer using Urinary Biomarkers	157-164
Detection of Polycystic Ovary Syndrome (PCOS) Using Machine Learning Techniques	165-170
Voltage Sag Enhancement of Grid Connected Hybrid PvWind Power System Using Battery and SMES Based Statcom	171-179
A systematic study of the mathematical modeling of the strength-duration relationship	180-188
Effect of Mono Potassium Phosphate and Calcium Fertilizer on Yield and Sweetness of Siam Orange Fruit on Off-Season Production	189-193
Synthesis and antibacterial activity of [1,2,4]triazolo[3,4- b][1,3,4] thiadiazine Scaffolds	194-199
Design and Fabrication of Air Preheater for Spark Ignition Engine for Determining Engine Performance	200-210
Experiments for Counterflow Flame over a Tsuji Burner	211-231
