

International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 11 ~ Issue : 01 ~ Ser. 4

p-ISSN : 2320-9356

Contents :

Additive Manufacturing Training Needs Assessment	347-353
Socio-Ecological Drivers and Dynamics of Limnothrissa Miodon on Lake Tanganyika: A Case of Mpulungu District	354-359
A Review of Techniques for Regularization	360-367
A Novel Hybrid Gwo-Pso Optimization Technique for Optimal Reactive Power Dispatch Problem Solution	368-373
Measurement and analysis of indoor carbon dioxide concentration and temperature and humidity	374-381
Progress in Polymer Composite Materials for Cryogenic Applications	382-386
Tribological Characterization of Inconel 718 under Varying Load Conditions	387-400
Experimental Study on Thermal performance of solar concentrator using Paraffin wax as Phase Change Material (PCM) at different depth of water	401-407
An Automated System to Predict Heart Disease Using Supervised Machine Learning Techniques	408-417
Monthly and annual variation of aerosol optical depth over Indian landmass using Oceansat 2 data	418-431
Design, Fabrication, and Development of an Automated Seed-Sowing Machine	432-442
Applying Concepts of Physics 201 in Daily Workout Exercises	443-453
