

International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 11 ~ Issue : 02 ~ Ser. 3

p-ISSN : 2320-9356

Contents :

Generation of Electricity from Paddy Stubble	223-227
Parametric optimization and predictive modelling of the mechanical properties of low carbon steel carburized at different temperatures and holding time using hybrid organic carburizers	228-236
Efficacy of some Plant Extracts against Sawtoothed Grain Beetle, <i>Oryzaephilus surinamensis</i> (L.)	237-238
Coverage Hole Detection in Embedded Wireless Sensor Network Using ACO Based Technique: Comparative Architecture	239-246
Diagnosis algorithm for early detection of Cervical Uterine Cancer: A Review	247-251
Prognostic methods for colorectal cancer detection and classification: A Review	252-256
Ideas of justice on the lens of Indian point of viewpoint	257-267
Review of the development and application of phase change thermal storage	268-274
Design and Implementation of Hydroponics Green House Farming using IoT	275-283
Improve the Mechanical Properties of Ti-6Al-4V Component Fabricated By Additive Manufacturing Using Gas Tungsten Arc Welding Technique	284-288
Professional Development For Blended Learning	289-294
Effect of pine bark biochar on the vertical morphological transformation of soil heavy metals	295-307
Assessment of Pyocyanin and Pyorubin Pigments as Coloring Agents on Unmordanted Denim Fabric	308-314
AI Driven Car Parking Automation	315-321
The area image recognition technology based on its multi domain feature	322-328
