

International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 11 ~ Issue : 05 ~ Ser. 6

p-ISSN : 2320-9356

Contents :

Rapid Scanning and OCR Technology	458-462
Vaidya Yantra (IoT Based Teledoctor)	463-467
A Survey Paper on a Model for Stroke Risk Prediction System	468-472
Detection of Plant Disease Using Machine Learning	473-475
A study on cotton fabric finished with microencapsulation finish using basil oil for meditech development	476-481
Handwritten Digit Recognition using Machine Learning : A Review	482-487
Role of Mobile Biodiesel Production Plants as Platforms for Technology Transfer and Innovation	488-491
Relevance of Traditional Architecture in the Modern Context	492-495
A Survey of Natural Language Processing Applications in Healthcare System	496-500
Zone Based Automatic Speed Controller	501-504
A Literature Survey on Leakage Current Detection in Power Transmission Line Insulators Using IoT	505-507
Detection of Plant Disease Using Machine Learning	508-510
IOT-Based Wearable Health Care System	511-513
Gender inequality and its impact on the quality of life in the older adults in Karachi, Pakistan	514-518
Implementation of Ai Based Stress Monitoring System	519-522
