

International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 12 ~ Issue : 12 ~ Ser. 3

p-ISSN : 2320-9356

Contents :

Obtaining AIMg/AIN Composites and Using Matrix Modeling Based on Taguchi Method	253-260
Geomechanics and Material Performance in Unconventional Reservoirs	261-273
The Compressive Strength of Light Weight Steel and Timber Composite	274-281
Statistical Analysis of Sociodemographic Characteristics and Knowledge of Risk Factors of Cancer among Cancer Patients of Kalaburagi City, Karnataka State	282-292
Analysis of Clay Soil Stabilization Comparison Using Rice Husk Ash and Cement Additives on Standard Compaction: Implications for Sustainable Construction	291-297
Analysis of the Physical Quantities Relationship of a Floating Object in Liquid	298-303
Enhancing Employee Motivation in a Waste Management Company	304-315
The Effects of Interest Rates and Inflation on Profitability: Data from Indonesian Telecom Companies (2019-2023)	316-321
Integrated CAD/CAE analysis for frame design of a twopost lift	322-333
QR CODE BASED PWD ID FOR Combating the Proliferation of Counterfeit	334-339
Analysis and simulation of the influence of computational loads and structural parameters on the optimal dimensions of the main girder of a double-girder box-type crane	334-339
The Effects of Using I Tools In Teaching and Developing Listening Skills	340-344
Comfort Quality of Pedestrian Paths on Tombolotutu Street	345-355
AI-Driven Analytics: The Future of Business Intelligence	356-367
