

International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 13 ~ Issue : 12 ~ Ser. 3

p-ISSN : 2320-9356

Contents :

A drug-grasping robot for traditional Chinese medicine pharmacies based on STM32	191-197
Driver Drowsiness Detection Systems: A Comprehensive Review	198-212
Design Development of a Mixed-Mode Reciprocating Pumping System for Small Scale Rural Water Supply	213-220
Machine Learning-Based Analysis and Mitigation of Interference Among FM Broadcast Stations	221-232
Research on Typical Cases of Scientific Research Evaluation in Regional Engineering-Oriented Private Universities under Resource Constraints and Application Orientation	233-242
Study of thermodynamic properties in binary liquid mixtures through ultrasonic measurements at 298.15K	243-250
Performance Evaluation of Smart Dynamic Alimosilicious Composite in Resisting Reinforcement Corrosion Subjected to Aggressive Environment	251-263
Seismic Analysis and Design of a Multistoried Building using ETABS	264-268
Research on Multi-Terrain Path Planning of Agricultural Robots Based on Multi-Algorithm Fusion	269-271
Accessibility Scout: A Mobile Geospatial Framework for Crowdsourced Urban Accessibility Mapping	272-276
Portfolio Builder	277-281
Algorithm for Estimating Rotation from Rigid Body Human Pose	282-287
