

International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 13 ~ Issue : 03 ~ Ser. 2

p-ISSN : 2320-9356

Contents :

Predicting Student Success in Government Exam Using Machine Learning	79-81
Predicting Stress and Mental Health Conditions Using Machine Learning	82-84
Social Media Addiction Prediction Using Machine Learning	85-87
Studies on the technology of hydrochloric acid degradation of fucoidan by orthogonal optimization and its antioxidant activity	88-93
Zooplankton Diversity of a Desert Village Pond in Bikaner Rajasthan, India	94-97
Design and Analysis of Dual Band Circularly Polarized THz Planar Slot MIMO Antenna for B5G/6G and Nano Communications	98-104
Experimental Study on Properties of Concrete by Partial Replacement of Cement With Silica Fume	105-112
The Neighborhood Planning: A Case Study of DATTAGALLI in Mysuru City	113-119
Corrosion Rates of Aluminum As Roofing Sheet In Acidic Media	120-129
Progress of research and application of sodium alginate food packaging film	130-143
Innovations in Mobile App Development: The Role of AI, Cross-Platform Technologies, and 5G in Shaping the Future	144-148
An EOQ Inventory Model Using Generalised WEIBULL Distribution under Ramp Type Demand with Shortages	149-158
Conversion of 1-octadecanol to 1-octadecene	159-170
Enhancing EFL learners' Motivation through the Effective Utilization of Visual Aids	171-177
Evil in the Traditional Religious Beliefs of UDI People of Enugu State	178-186
