

International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 13 ~ Issue : 09

p-ISSN : 2320-9356

Contents :

An Advanced Machine Learning Model based on Plant Disease Detection and Classification for Improving the Productivity in Agriculture: A Literature Review	01-08
A Comparative Review on Scheduling Techniques in Serverless Computing	09-14
A potential third layer within praying in English: A linguistic-cognitive analysis	15-17
Some New Inequalities of Lommel Wright K-Function	18-26
Analysis of Fractional Goursat Problem by using Differential Transform Method	27-43
Analysis of Clean Water Availability and Satisfaction Needs in the Duyu Relocation Housing Area, Palu City	44-51
Environmental and Health Implications of Brick kiln Emissions: A Case Study of Budgam	52-56
Implementation of Advanced Generic Product Quality Technological Maturity Assessment Model, Ebere Dim MT003 by Membership Function on Metal Additive Manufacturing Process	57-66
Applications of diverse nanoparticles in agriculture	67-92
Performance Testing of Single Cylinder Di Diesel Engine Using Rice Bran Bio-Diesel Blends	93-99
