

# International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 14 ~ Issue : 03 ~ Ser. 2

p-ISSN : 2320-9356

## Contents :

Research Progress and Prospect of Current Collector for Aqueous Zinc Ion Batteries	117-123
Enhancement of Energy Storage Performance of Polyaniline via Carbon Dots Incorporation	124-129
Intelligent Single-Arm Robotic System for Automatic Sorting of Bananas and Oranges Using Computer Vision	130-136
Comparative Review of Methods for Heavy Metals Analysis by Xrf, Aas and Pixe	137-145
Exosomal Small RNA Sequencing and Analysis from Serum of Alzheimer's Disease Patients	146-153
Research Progress on Laser Additive Manufacturing and Heat Treatment Processes of Metastable $\beta$ Titanium Alloys	154-160
Research Progress on Graphene-Based Anticorrosive Coatings: From Structural Regulation to Multifunctional Integration	161-165
Comparative Analysis of Bouncing Cosmology in Nonlinear $f(Q,T)$ Gravity	166-174
Geospatial Liquefaction of Balaroa Area Based on Before Characteristic Hydrogeology and After Disaster Geoelectric Measurements at Palu, Central Sulawesi Province, Indonesia	175-180
Research on the Influencing Factors of College Students' Willingness to Participate in Live Recruitment Events	181-193
AI-Driven Smart SLA Monitoring System for Real-Time Performance Evaluation	194-199
