

International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 14 ~ Issue : 08

p-ISSN : 2320-9356

Contents :

Optimizing Agricultural Practices in Jaipur Region Through Hydrus Guided Solute Transport Analysis for Improved Crop Yields	01-05
Beyond “Positive Risk”: From Antecedents to Effects Conceptual distinction and coordinated management of risks and opportunities in complex management systems	06-25
Investigation of Differences of Water Reynolds Number to Methanol 25% In Heat Exchanger Double Pipe and Coil	26-33
Translation and Validation of the Chinese Version of the Academic Advising Evaluation Scale	34-41
Optimization and Development of an Academic Advising System for Transportation-Related Programs Oriented toward International Employability under the OBE Framework	42-47
Towards Data-Driven Innovation Pathways for Enterprise Customer Relationship Management in the Digital Era	48-51
The Cosine Separability Margin as a Geometric Predictor of Speaker Diarization Performance: Theory, Measurement, and Implications	52-59
When SME Standards Meet Public Markets: Bridging the Financial Reporting Gap in IFRS Adoption—Evidence from Egypt	60-86
The role of wall materials in the thermal conditions of mosque prayer halls in the equatorial tropics: a case study of Nurul Yaqin Mosque, Palu City, Indonesia	87-101
Comparative Analysis of Security Vulnerabilities in AI Assisted and Traditional Software Applications Using Ethical Hacking Techniques	102-121
Recent Advances in Artificial Photosynthesis Technologies for Renewable Energy Generation and Their Implications for Lithium-Ion Battery-Supported Solar Energy Systems	122-140
A Study Focusing on the Advantages and Disadvantages of Using Tungsten Metal in the Medical Field	141-144
An Integer Linear Programming Approach to Optimizing Dish Allocation in a High-School Canteen	145-155
A solution to the Riemann Hypothesis concerning an aspect of prime numbers: A formula for a binary matrix	156-161
