Volume : 9 ~ Issue : 10

p-ISSN : 2320-9356

Contents :

Study of Biomedical uses of Inorganic Nanoparticles	01-06
Design and Analysis of Straight Frame over Fish Belly Frame	07-40
Value Analysis of Revolving chair Wheel by Value Engineering: Case Study	41-46
Antimicrobial Screening and Physicochemical Properties of the Seed Oil of Adenopusbreviflorus	47-50
Implementation of Multiplier and Accumulator Unit Using Vedic Multiplier and Carry Save Adder	51-55
Schiff base complexes as versatile pharmacophores of metallopharmaceutical interest-A review	56-63
Prediction of Velocity Profile in a Rectangular Shape Nozzle	64-66
Optimization of the chronoamperometry deposition time to get impermeable films from resorcinol solutions	67-74
Inferring Evolutionary Distance Using Kimura's Two Parameter Method	75-81
An Analytical study on flexible pavement and rigid pavement design of a Road	82-88
Analysis of domestic consumption of drinking water and performance of distribution networks in the region of Medea (Algeria)	89-93
Research on Garbage Classification Model Based on the Fusion Model of CNN and SVM	94-99
